

Activity Therapy Service
Adult Assessment
Instructions

- 1) All admissions with a stay of three days or longer (excluding weekends and holidays) will be assessed.
- 2) If medical or psychological conditions prohibit completion of an assessment a blank assessment will be placed on the medical record with a statement that you were unable to assess the client and give the reason why you were unable to assess and the date you will next try to assess the client.
- 3) All sections of the assessment must be completed.
- 4) Place assessment on the unit so that it can be filed on the medical record.
- 5) Share Activity Therapy assessment finding with clinical team.
- 6) Use assessment as the bases for referral to Activity Therapy groups.
