

## CENTRAL CARE POLICY UTILITIES

<b>SUBJECT:</b>	<u>UTILITIES</u>
<b>ANNUAL REVIEW MONTH:</b>	<u>June</u>
<b>RESPONSIBLE FOR REVIEW:</b>	<u>Director of Central Care</u>
<b>LAST REVISION DATE:</b>	<u>August 2010</u>

Each service location will have a variety of utilities in use. Each home (service site) will have a specific list of the utilities that are in use and the phone numbers for each utility that services the home.

If a dangerous situation develops concerning the function of a utility the consumers will be evacuated to a previously designated location and the utility company will be notified.

Should the failure of a utility make the home unlivable, consumers will be moved to another Central Care Home with similar disabilities or Central State Hospital for temporary living accommodations.

Report incidents to Service Director, Director of Central Care and Chief Executive Officer.
